UTAH STATE OFFICE OF
REHABILITATION

April 2017 Performance Data: Services for the Blind and Visually Impaired

The Division of Services for the Blind and Visually Impaired (DSBVI) provides services such as Low Vision Clinics and recommendations, specialized case management services to clients throughout the State of Utah, and training services to increase independence and employment opportunities.

Training and Adjustment Services

Training and Adjustment Services (TAS) is an extensive training program that offers a variety of classes for individuals who are blind and visually impaired such as learning Braille, computers, home management, needle arts, woodworking, orientation/mobility, and job readiness.

Support Service Provider Program

The Support Service Provider (SSP) Program serves individuals who are deaf/blind. The program encourages clients to improve community integration, independence and access to their environment. The SSP may educate and assist clients with errands, bill management, transportation, reading, and familiarization with their physical environment.
